

Incoming 10th Grade

This year, Lake Central High School will be utilizing an online program entitled “Course Planner” for course scheduling (2012-2013 schedule). The program will be available through the RDS Parent Access portal.

Once you log into Parent Access, click on the Course Planner link on the left hand side of the opening page (for specific information on how to use Course Planner, please visit www.lcsc.us/lchs for handouts and video tutorials).

Incoming 10th graders will automatically be enrolled in the following courses:

- English 10
- Speech (s)
- Geometry
- SPT (Study Hall)
- Chemistry
- Health (s)

Students who wish to enroll in an honors level course (for example, Chemistry Honors), must make a note in the comment section of the Course Planner. You must click on “save notes” or it will not save.

Incoming 10th graders must select 3 additional full-year electives (or the equivalent half-year electives) to fill their schedule. A list of possible electives are listed below. Information about specific courses can be found on the LCHS website by clicking on the Course Selection Guide.
